

Self Assessment  
Towards Optimization  
of Building Energy

This project receives funding from the European Union's Horizon 2020 Research and Innovation Programme under Grant Agreement Number 957128.

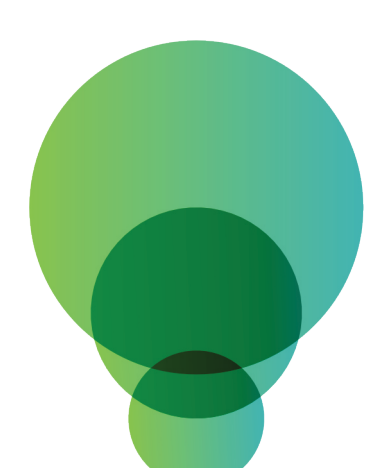

SATO will implement a **cloud based platform** that can perform self-assessment and optimisation of energy consuming devices in a building.

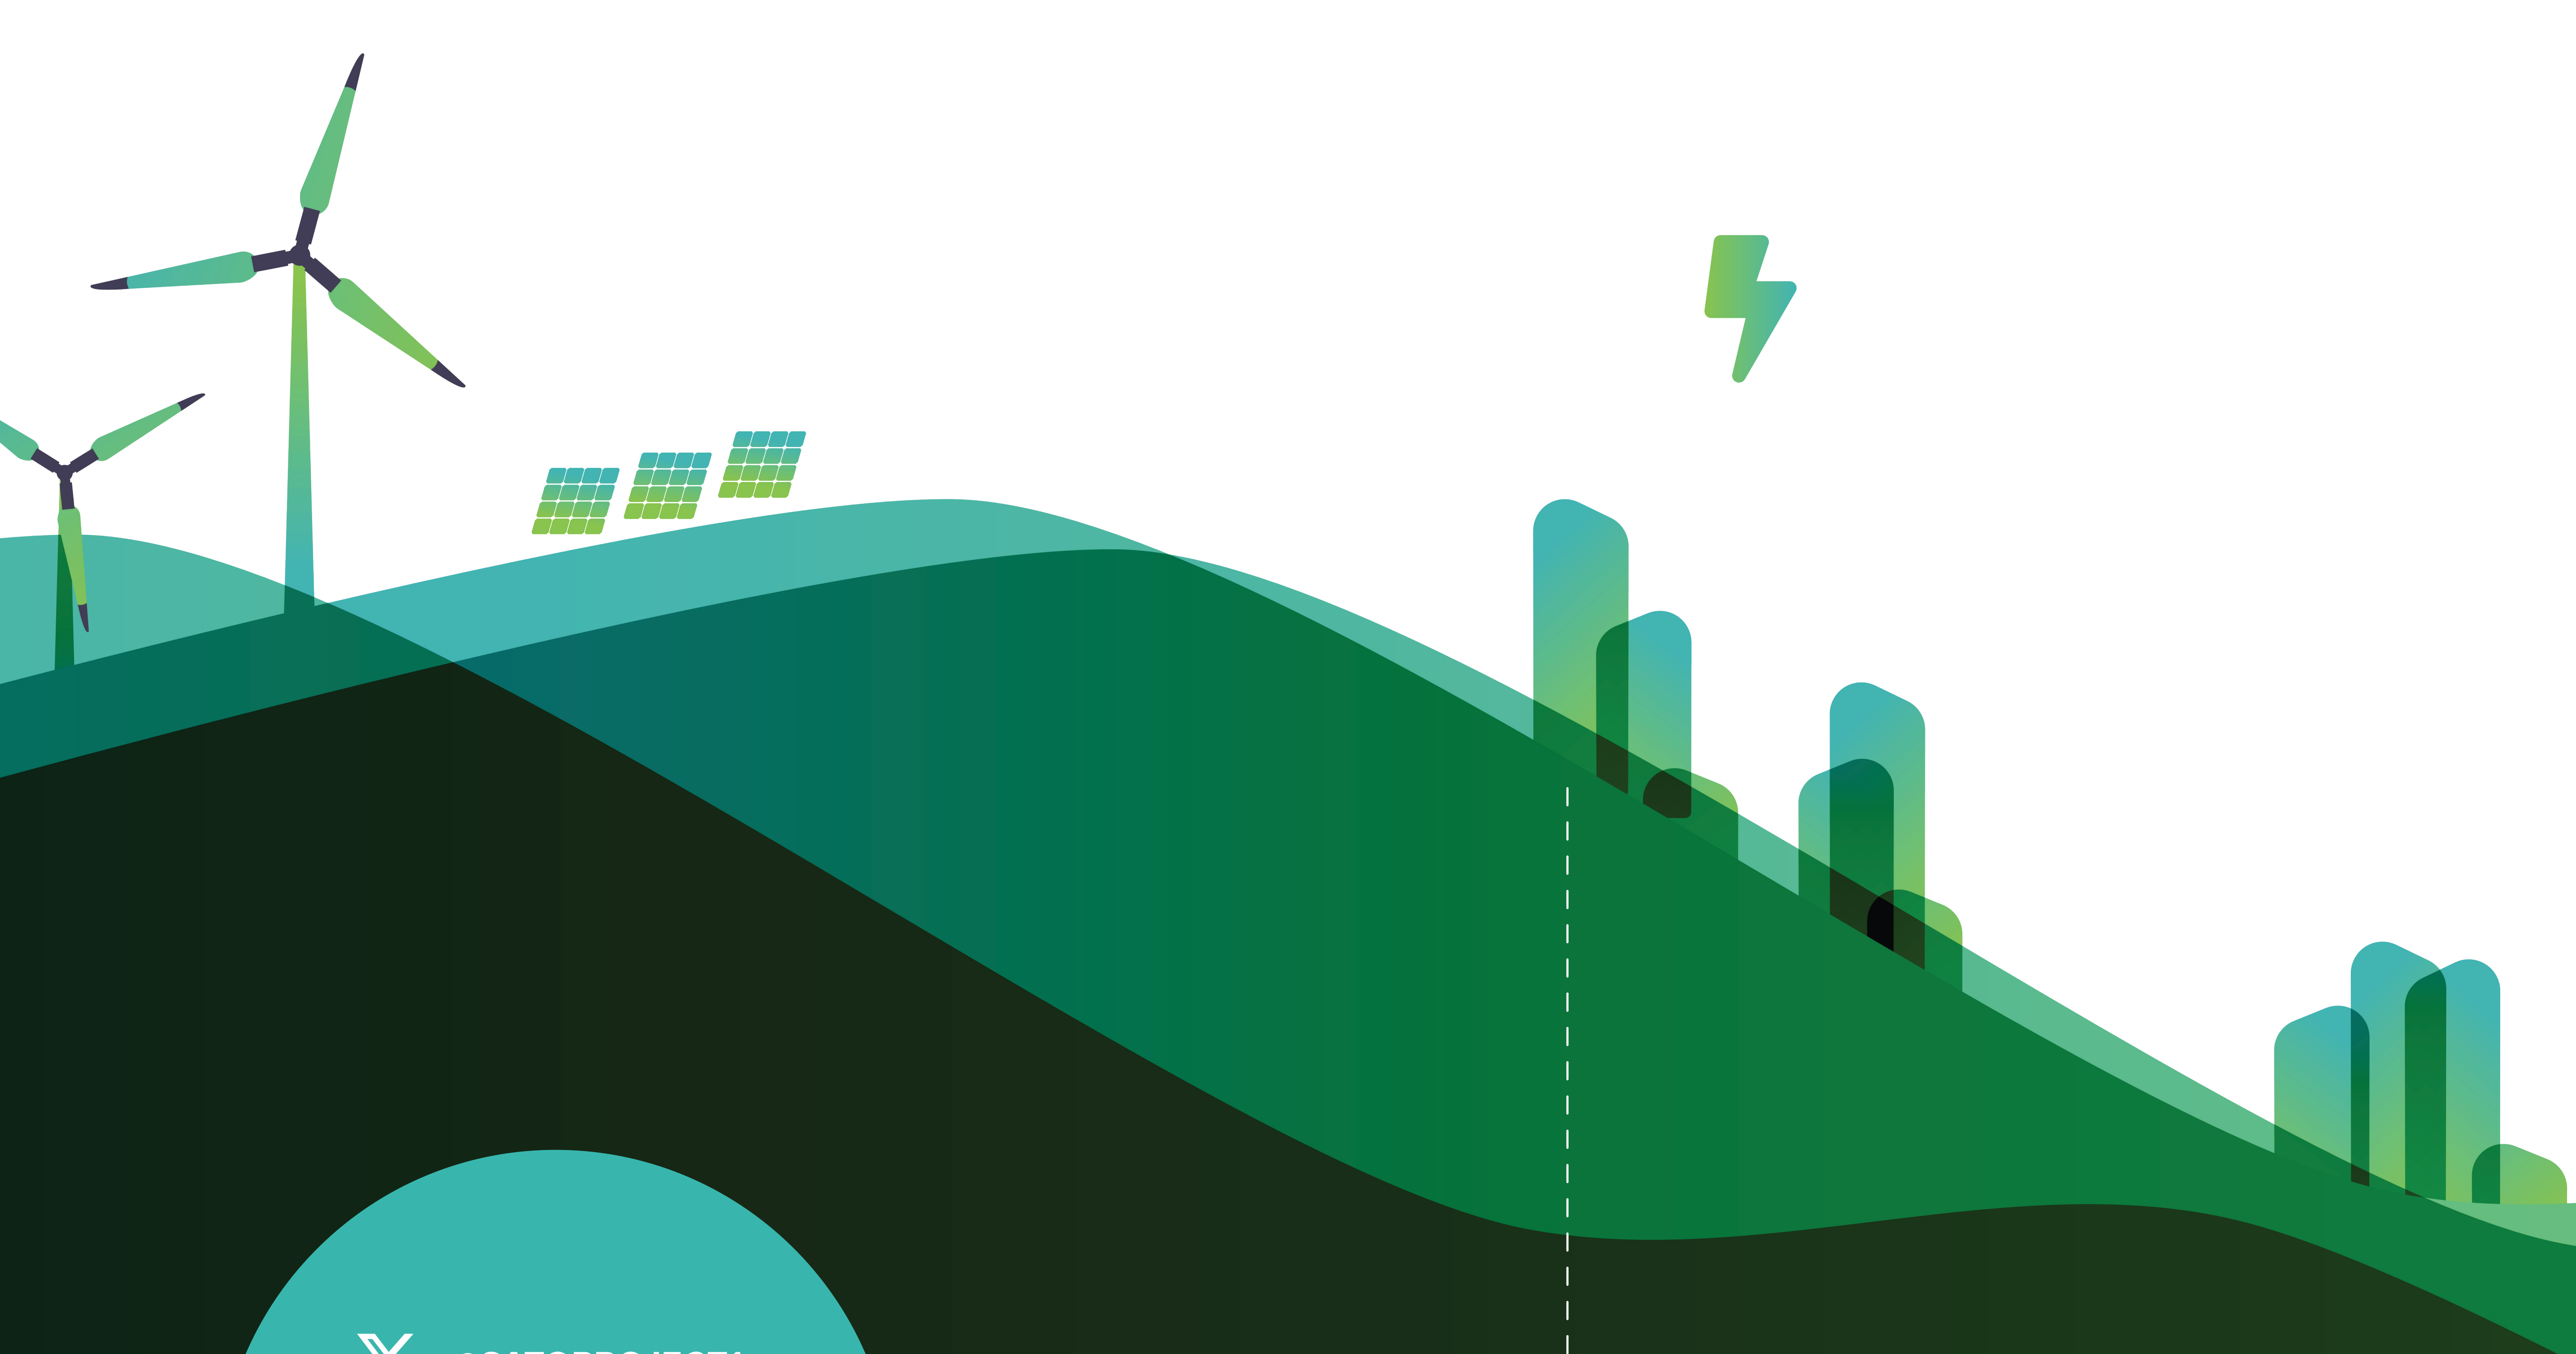

1.800 GWh/year  
primary energy savings

20% reduction  
of the energy consumption  
throughout project

275.000 tCO2-eq/year  
reduction of greenhouse  
gas emissions
